Dr Archie Bryden (UK) Critique

My thanks to the officers and committee for the honour and privilege of judging the Club's 30th Anniversary show. Thanks too for the welcome and hospitality received from all, including Anthony, Mel and Frances, but especially to Alan Short and his daughter, Julie, for looking after us so well during our stay in sunny Perth.

I was most pleasantly delighted at the excellent quality of dogs being exhibited – correct breed type was there in abundance. Heads in general were short and deep through with distinct stops and there were no very weak, shallow, snipey heads on view. Most were well boned with ample spring of rib. I am not going to say there was a downside but inevitably there are a few points breeders must watch. The first is to be careful about heads not getting too short in the muzzle and wrinkle must be avoided; although the ratio is not specified in the standard one should aim to keep to the 1:2 proportions and not go less than that. One or two lacked a little fill-in under the eyes which can spoil the expression and some eyes could have been a bit rounder – slightly oval eyes do affect the expression too. Mouths on the whole were all right but breeders must watch the canines – one or two were getting little bit too tight and one dog had a single canine digging into the opposite gum sufficiently badly to be penalised. Fronts were on the whole quite good with only one or two being too narrow. Thus front movement was generally satisfactory. Top lines were mostly satisfactory but rear movement left a lot to be desired with some dogs. I know Staffords are unlikely to have the classical rear movement found in other breeds but on this occasion the rear movement on a number let them down and breeders should give this priority. Height was generally all right and while one or two dogs were 'top size', none demanded penalisation. Nevertheless breeders need to avoid over size coarse dogs that leads to loss of type.

1 Cannon's Trueblend Tiptoein on Riffraff.

1 Cook's Staffegan Gems Pride *
Very promising 11m brindle, lovely head, well made bodily fore and aft and has all the attributes to go all the way. I gave her a second look in the challenge but naturally missed out on lack of maturity at the moment.

2 Whiteman's She Steals the Show.
7m red and white, naturally lacked the maturity of winner, head and bite ok but ears need to settle a little. Moved OK.

DOG

BITCH

1 Johnson's Koendidda White Gold *

Very strong red/white, strong head with good bite, strong muzzle, pronounced stop, well boned, tidy feet, well ribbed, moved OK. Would not like him any taller and would have benefitted from being a little fitter, nevertheless has many virtues. RDCC

1 Bawden's Ch Castlebar Pretty Little Liar. Litter sister to Australian bred/CC winner and similar comments apply, in the challenge I preferred the head and expression of her sister but she is a quality specimen all round.

2 Findlater's Supreme Ch Artisinal Why So Serious. White and brindle, nice head but just preferred that of winner, good all round bodily, moved OK

2 Strover's Ch Westrova Stoic Flirt in a Skirt. Very nice brindle and white with good head and expression, well made all round but strong with no exaggerations.

3 Scott's Ch Castlebar Full Metal Jacket. Bindle with all the attributes in head and body but felt he did not move as well as 1&2.

3 McBride's Ch Brohez Black Art. Pleasing enough brindle with many attributes but felt 1&2 just had the extra qualities that gave them the edge on the night.

1 King's Ch Akinos the Snowman

Decent headed white, well enough made all round, moved well.

1 Fisher and O'Donnell's Keltrice Amulet *

Very pleasing 12m little bitch, nie head, well made bodily, moved well. I know why she was spayed which is a pity as she was well worthy of breeding from and could have produced well if wisely mated. The warning to all is 'don't throw baby out with the bathwater'!

2 Menzies' Kingbullies Demolition Dozer.

White and blue, well enough made lighter type which could not match the substance of winner.
