31st. Championship Show.

11th. November 2017

I should like to take the opportunity, in the first instance, to thank the Committee for affording me the honour of judging this excellent, well run, show and for the hospitality shewn me.

My thanks also go to my Ring Steward who competently ran the proceedings so well.

Lastly and certainly not least my thanks go to the exhibitors who honoured me in allowing me to judge their dogs and for their sporting response to my decisions it all made my trip a very memorable occasion and one that I shall treasure.

I should like to say that the standard of dogs was excellent and many would hold their own and more in the U.K. and you should endeavour to keep the attributes you have in (a) good muzzle length (Important in the climate you have) and (b) in very good, muscular hindquarters as these are sadly lacking in the U.K. especially in Black brindles and to a lesser extent in Reds.

Baby Puppy Dog. 1ent.

1st. Allen's Bullitproof The Assassin. A well built B/B puppy with a strong skull, rose ears, nicely placed eyes and tight lips. His bottom canines need watching but apart from that his bite is scissored. He is well boned with good quarters fore and aft. Developing well and his white throat and chest enhances his broad chest. Moves well enough.

Minor Dog. 2 ent.

1st. Murphy's Mokoistaff Just Voltage. A red dog predominately with a dark mask and small white flash to chest. He is very nicely headed with good depth and width to muzzle and a good mouth. With dark eyes that look straight ahead and rose shaped ears, which he uses to advantage, he has a nice expression. With good bone all round he has a good spring for one so young. He moves quite well but needs a bit more control. Should do well in the future.
B.P.

2nd. Strover's Westrova Stoic Jackson (AI) A B/B with a white flash to chest and is still a bit loose at present and needs to tighten up a bit all round as his movement is a bit erratic. He is nicely headed though with good eye and ear placement whilst his mouth is good with a terrier bite. He is clean lipped and has a broad skull. He lost out on maturity mainly but is still a pleasing puppy.

Puppy Dog. No entries.

Junior Dog. 4 ent. (1 abs).

1st. Shaw's Ch. Belleden Red Sunstone Ov Mars (AI). A very pleasing, white throated, Red dog. Who is very sound and I was not surprised to learn later that he was already a Champion. He has a very good, wide and well boned, straight front with the correct depth of brisket. He is nicely ribbed and is reasonably short coupled. However it is in his head quality that he excels with a skull which is both broad and deep and cleanly lipped. He has rose ears, which are carried correctly, well placed eyes which are commensurate with his coat colour ,good dentition and a terrier bite. No hesitation in placing him first.

2nd. Sinclairs Spartanblu Octavious Lightning. A B/B dog with a white badged front who has a decent head that it both wide and deep. He has a nice expression with well placed eyes and a rose ear carriage. His mouth is good. His neck length is short and muscular and melds into a decent front which, in turn, flows into a body of decent proportions. Being fairly short in the couplings he has a well muscled backend. He is a little loose still and needs tightening up but this should not mask his other qualities and his owner will have to wait for that bit more maturity.

3rd. Farrugia's Brindlebuddy Bossy Boy. I am not overly mouth conscious but I'm sorry to say that it is that which cost him dearly! My notes said that he was probably the best dog in the class but..... He is a Red of good make with white striping to his chest. His head is well proportioned with good ears and nicely placed eyes. He is beautifully bodied with a front which is well boned and he has good feet and with such a strong, muscular rear he moves very well. I liked him a lot.

Intermediate Dog. 1 ent. (1 abs)

State Bred Dog. 4 ent.

1st. Park Findlater's Ch. Artisinal Most Wanted. A flashy B/B with a white front and socks. He has a classic, well contoured, head with good muzzle to skull proportions and which is broad and has that essential depth. His eye and ear positioning is very good as is his mouth quality. Wide fronted and well bodied-up he is fairly short coupled and owns a good backend which he uses to move with drive whilst holding his topline all the while. A good specimen of the breed he pushed hard for top honours.

2nd. Cohen's Starshiraz Delerium. This flashy Red and white dog with a bit more ring craft work could go far (I understand that this was his first show) and it was his reluctance to being handled that tipped the balance but it has to be said he is my type of dog!. Beautifully headed with good width between his dark eyes and thin, rose ears well placed he has good depth to his skull. Eventually when he let me look I found good dentition. Bodywise his striking white front and socks accentuate his wide front which is well boned, straight and

true with no loading at the shoulder. His neck length is correct being rather short and strong it runs into a well ribbed, short coupled, body which in turn is completed by a very powerful backend. Being hypercritical I would like to see a slightly lower set-on but his tail carriage is more than acceptable. His movement was a little difficult to assess as being a novice he wanted to go where he wanted. My applause goes to his lady handler as he gave her a bit of a hard time but she persevered and if this is corrected he has a bright future.

3rd. Hogan and Collinson's Westrova Reggie Kray. A dark brindle dog with white to chest. He owns a very good head with a good length of muzzle under which is dentition of good quality. Muzzle to skull ratio is very good. He is not so bodied up as 1 or 2 but his proportions are O. K. as is his movement both coming and going. A "typey" Stafford.

Australian Bred Dog. 6ent (2abs).

1st. CH. Westrova Stoic Makers Mark. A white throated and chested B/B of powerful build. He is strongly headed with a pronounced stop and a short muzzle covering a good mouth. His round, dark eye and rosed shaped ears appeal and he has a nice expression. His short, powerful neck runs into good shoulders with width to chest and a straight front. He has a good depth to his brisket and is well ribbed and being rather close coupled has decent hindquarters. His movement is good holding his topline on the move. A little short in the foreface for me but this should not override his other qualities.

2nd. Cook's Staffegan Bullet Proof. Another B/B with white to chest and throat. He was probably the best mover in the class and this won him his place in the line-up. Strongly headed he has good eye and ear set although he "flies" the latter a little. He has nice length to his muzzle which is balance by his skull. He is nicely bodied-up and has decent quarters fore and aft and it his rear that enables him to move with drive. His brisket is a little deep and gives the impression and it is only an impression that he is a bit short in the foreleg but, in fact, is not.

3rd. Farrugia's Farrugstaff Teardrop Ov A Clown. A black and white of decent quality. He is very attractive with a predominately white front, socks and blaze to head and certainly catches the eye! He has good head qualities in ear and eye placement which aid his expression. His dentition is good and he has a decent foreface which is quite wide and with enough depth. He is also nicely boned and has a good front behind which he is deep chested and is reasonably short in the loin. Lost out to 2^{nds}. slightly better movement.

Open Dog. 7 ent. (3 abs.)

A very good class which made the decisions very close and as Jamie Mace showed the next day the places could change at other times.

1st. Scott's Ch. Castlebar Full Metal Jacket (AI). A straight fronted, well bodied, Brindle dog with a good front and a heavily muscled backend which drove him across the ground with that essential drive. He is also very nicely coupled. His strong, well muscled, neck is of the correct length and supports a very good head, His other fortune is that he has very good dental attributes and along with his ear and eye placement and shape and these combined give him that classic Stafford look. A

super dog of undeniable quality who is superbly fit. A worthy Champion who was awarded the C. C. and B. I. S.

2nd. Johnson's Koendidda White Gold. A predominately white and red pied of good make and shape. He has a good muzzle to skull ratio and is clean lipped with a good well set mouth. Positioning and shape of ears are good and he uses them to advantage. His eye shade is commensurate with his coat colour and they are nicely placed. Slightly Longer in the neck than 1 he has a good front behind which is a very sound body in both depth and width of chest. Being reasonably short coupled and with good hindquarters he is a good moving dog and although he didn't take my eye immediately the more I went over him the better I liked him.

3rd. Kesic's Ch. Powerpaws Iron Man. A Red dog with a white chest badge who is nicely headed with well placed eyes and ears. Face on with width between the eyes he certainly has the appeal of a classic Stafford. Bodywise he excels with a wide front which is straight, clean and well muscled and he is well proportioned in rib width and depth. He is short coupled and his movement is powered by muscular hind legs whilst holding his topline at all times. Unlucky today but a good dog all the same.

Veteran Dog. 3 ent.

1st. Park Findlater's Supreme Ch. Artisinal Why So Serious. A White dog with black head patches. A four square dog of excellent quality. Still strongly headed and in very good "nick" for an eight year old. He is a dog that is nicely put together in all areas. His eyes and ears are nicely placed and he owns a mouth of very good dentition. He is strongly fronted with excellent quarters and is still well bodied up with good depth to brisket and barrel rib. With a level topline he has that essential drive from a still well muscled rear end. One of the best, if not the best, mover of the day. It is easy to see why he is a Supreme Champion and one who can still give the young 'uns a run for their money as he is a lovely dog and is almost the Standard on legs. A worthy R.D.C.C. winner and R.U.B.I.S.

2nd. Farrugia's Ch. Farrugstaff Red Temper. A mainly red dog who like 1 is in extremely good condition for his age. He has a good head shape with ears and eyes of the correct shape and colour and he has a good mouth with the correct bite. In his body he has a well defined front and a strong backend with a good spring to his rib and he is also fairly close coupled. Another good moving dog and one I liked very much.

3rd. Taylor's Jomaldun Polar Express. A white dog with black "ticking" undercoat. What a powerful lad! So strongly built with good bone supporting good front and rear quarters. He retains that barrelled rib but lost out to better movers. However his expression is very good with good eyes and ears. He obviously has been a decent dog in his day.

Open Neuter Dog. 1 ent.

1st. Kesic's Ch. Akinos The Snow Man. As the name implies a predominately white dog of obvious qualities having a good head with nice round eyes, good ear carriage and shape and a good terrier bite. His quarters are good with a straight nicely boned front of width and depth and he is reasonably short coupled with a good back end. He has decent movement whilst holding his topline. C.C.

Baby Puppy Bitch. 4 ent.

1st. Park Findlater and Meyerkort's Powerpaws Flower Of Scotland. A sound B/B puppy who has a lovely head . She is very clean lipped with nice length to her muzzle and her mouth is good. Her eyes are well set as are her rose shaped ears. With an adequately boned front and good feet she is bodying up nicely. She has a backend which is muscular and she is well let down and she moves well enough if a bit loose at the moment but she was the best mover. It is fair to say that they were all a bit loose in this class and the next two which is understandable given their age. If she continues to improve se will be a very good bitch and when her forechest develops and her sternum drops her white flashed front will impress.

2nd. Kesic's Akinos Tides Have Turned. A smaller than 1 Mahogany Brindle pup with chest badge of white. She is nicely headed with a good eye. Ears are rosed and not overly large. Mouth is O. K. but she is not quite so clean in the lip as 1. A very promising girl who is strongly boned with developing rib and good, muscular hindquarters. An all round nice puppy who will, hopefully do her owner proud. Unfortunately her handler pulled her back legs out which tended to make her look longer than she is.

3rd. Park Findlater's Adstaff Galway Girl. An upstanding white puppy who is beautifully headed with good eye and ear placement. She has good muzzle to skull proportions and her slashed lipped mouth covers, at present, good dentition. Beautifully bodied with nicely boned front and good rear quarters she moves O. K. but erratic. Needs to mature a bit more as she shows promise.

Minor Bitch. 2ent. (1 abs.)

1st. Park Findlater's Westrova Stoic At Artisinal (AI). What a lovely puppy this, white chested, B/B is with a beautiful head that carries all the virtues one looks for. Well balanced she has a good neck and this flows into a good body and she has good quarters in both front and rear. She moves well holding her topline and carries her pump handle tail correctly. Unless things go awry she has a very bright future. Just lost out to the dog for best minor.

Puppy Bitch. 1 ent.

1st. McLean's Onahi Stormborn. Overall a pleasing Brindle with a white chest blaze. She owns a classic Stafford head with good eyes and ears in both shape and position and she has a nice expression. Another nicely quartered girl with a good, true front, clean limbs and good feet. She is well bodied up and short coupled but appears to be slightly over angulated at the rear. Her tail set is good and she moves quite well. A lot to like and she should do well.

Junior Bitch. 4 ent (2 abs)

1st. Fidler's Onahi Just Like Fire. Yet another well put together B/B who has white to her throat. She is beautifully bodied with good, strong quarters fore and aft and moves well with drive. With good width and depth to skull and muzzle she also has good ear carriage and wide, well set eyes that look straight ahead. Her lovely expression just finishes her off and tipped the balance in her favour. A very likeable girl. R.C.C.

2nd. Park Findlater's Cherishapug Blow My Trumpet. The first thing that hits you with this bitch is the powerful head she carries with its wide and deep muzzle in front of a skull that is also wide and deep. Her eyes are dark and well set and her ears are rosed in shape. With a white streak to her neck she not so well fronted as 1 she has good bone. Quite nicely bodied she is short loined and has a decent backend which helps when on the move. Another pleaser from this owner. I wonder how many she's got?

Intermediate Bitch. 5 ent.

I would like to comment on a very good bitch in this class, that had she been fitter she would have won it, probably, but she was so overweight that it would have been grossly unfair to the other exhibitors who have put time and effort into their dogs to have done so. Especially with such quality contenders!

1st. Cook's Staffegan Spirit Of Bailey. A good moving B/B sporting a white front, feet and streak to head. A sound bitch who is clean in outline, has a good, well ribbed body and good quarters. She has a well defined head which is both broad and deep and she has lovely eye placement with eyes that follow you as if to say "look at me". She is tight lipped with very good dentition having a terrier bite. A good, sound bitch with plenty of daylight underneath she has lots to like.

2nd. Bawden's Ch. Castlebar Raise The Roof. Ran 1 very close but lost out to slightly better movement and cleaner outline but what a cracker this B/B bitch is. Power exudes from her in all areas. Broad chested, barrel ribbed, short coupled with a powerful backend and to complete it all she owns a very good head. She has a good mouth, well placed, dark eyes and although her ears are a little pendulous they should not detract much from her other qualities. Easy to see why she is made up.

3rd. Coulson's Lilrock Devils Angel. A pleasant B/B with a white chest badge who was unlucky to be in with 1 and 2 as she is a sound girl with decent quarters both front and rear which is accentuated with a well set, pump handle tail. She is nicely bodied and fairly short in the loin. Headwise, although a bit short in the foreface for me, she has very good depth and width to her skull with dark, round eyes and rose ears and a good mouth. Lots to like.

State Bred Bitch. 5ent.

The first three placings were all very close.

1st. Kesic's Akinos Temptress. A well balanced B/B bitch who moves very well. Strongly headed she has nice, wide eye positioning and rose ears which together give her a pleasing expression. Her mouth has good, well placed teeth and a scissor bite. She has a short, strong neck which melds into a good, straight front behind which is a short coupled, well ribbed body and strong muscular hindquarters. She moves well.

2nd. McClean's Onahi Get Your Kit Off. An upstanding bitch of quality she is nicely headed with a round eye, small, rose ears and a well set mouth. Her skull to muzzle ratio is good and her head is deep through. This B/B is nicely bodied with a good forehand which is enhanced with a flash of white. She is nicely boned with adequate rib and is reasonably short in the loin. Strong, muscular hams propel her across the ground. Pushed hard for 1st. place.

3rd. Cook's Staffegan Gems Pride. Another B/B who again is a bit short in the foreface for me but nonetheless she has lots of qualities that can't be overlooked. She possesses power in the head and body with excellent quarters. Headwise she has nice, dark and round eyes and a rose ear shape. She also has an appealing expression. Bodywise she is very strong with a short neck running into good shoulders, wide chest and plenty of rib. She is short in her couplings and has a well muscled back end. She moved with enough drive.

Australian Bred Bitch. 3 ent.

1st. Coulson's Ch, Lilrock Da Devil In Disguise. A nice type of B/B bitch with a good head and pleasing expression with well placed eyes that look straight ahead and good ear carriage. She has a terrier bite and good, well placed teeth. She has a good front behind which is a well bodied up, short coupled, body with strength to to her back end. Her movement won her the class.

2nd. Bawden's Ch. Castlebar Ringside Riot. Another good moving B/B with a nice, well shaped head of the correct ratios of length to depth. Her eyes are set wide apart and are nicely rounded. Ears are O.K. and she has good dentition with a true terrier bite. A little longer in the neck and body than1 she nonetheless has decent quarters and as previously said she uses them to move well. Finally her tail set is good and her pump handle tail sets off her hindquarters.

3rd. McCrea's Magicmine Dukes Angel. CCD. A pleasing bitch with a nice expression. She has a wide and deep head with eyes and ears nicely placed and she has de fined cheek muscles. She possesses strong, muscular quarters and is well ribbed. She moves well enough but could lose 2-3 pounds to advantage. A typey B/B bitch all the same.

Open Bitch. 5ent (3 abs.).

1st. Bawden's Ch. Castlebar Pretty Little Liar. A B/B bitch with a white chest badge and one white foot and another showing that essential power. She is beautifully headed with all the points one looks for in mouth, eyes and ears. She has a good, straight forehead with more than adequate bone and the correct depth of brisket. She is also well ribbed up, short in the couplings and a good backend. In spite of signs of motherhood she is in top condition and moved very well. C.C.

2nd. Stroker's Ch. Westrova Stoic Flirt In A Skirt. A flashy, eyecatching Black and White pied of very good type. She is a nicely headed specimen with excellent eye and ear placement which gives her a very appealing look. She has good depth and width to her skull and is short in the neck. This, in turn, runs into a very good, straight front and behind which is behind which is a well proportioned body that is nicely ribbed and short coupled. With good hindquarters she moves very well.

Veteran Bitch. 1 ent.

1st. Leggo's Jomaldun Chelsea's Miracle. A predominately White bitch with black " tickings " under coat. At eight and a half years of age she is in pretty good condition. Her head shape is good being both wide and deep and she has she has a good mouth. She also has good eye shape and rose ears. Her short neck runs into a powerful front which is both wide and straight. Bodywise she still has plenty of power and retains a strong rear end. Moved O.K.

Open Neuter Bitch. 1ent.

1st. Fisher and O'Donnell's Keltrice Amulet. A Black bitch who sports white markings to head, chest and feet. A very nice type with a broad, deep skull and a classic head shape. Ears, which are rosed and eyes that are dark are well placed. Nicely fronted with good shoulder placement she is well off for rib and is short coupled. She has a good turn of stifle and well defined, muscular thighs which propel her well across the ground. A classy girl. C.C.
