STAFFORDSHIRE BULL TERRIER CLUB OF WESTERN AUSTRALIA

I would like to thank the Staffordshire Bull Terrier Club of Western Australia Inc for their invitation to judge the 6th Iris & Alan Short Championship Show. It was a real honour for me., the hospitality I received was second to none. I want to compliment the Club for the great atmosphere I felt during and after the show. My thanks also go out to my team, Lauren Storrs –gate steward, Lee Gray – ring steward and Cathy Storrs - chief steward for the very smooth running of the ring and your interaction with the exhibitors and me.

I was very pleased with my CC and reserve CC winners, a treat for a judge to find this kind of quality in an entry. Overall I was more pleased with the dogs then the bitches. Especially in dogs it was hard to award the top honours, decisions were made on really minor details.

Unfortunately there were quite some dogs with dirty teeth. For me this is a big issue as I believe that your dog should be turned out as immaculate as possible and not only that, dirty teeth can lead to serious health problems. A tooth with a chip, is a bad luck but can happen, as they're terriers which are full of life and should live accordingly, but teeth should be clean (just like the rest of the dog!)

Quite a number of dogs where shown with slip collars. This looks perfect when you know how to use it properly and by this I mean that you're not attempting to choke your dog, if you present your dog with a slip collar it should be loose around the neck when presented to the judge and not that the judge has to untangle the collar. There is nothing wrong with a proper Staffordshire Bull Terrier collar and lead. Overall fitness was an issue, fitness is important to me. That doesn't have to do with preference for a certain kind of type, my remark here is just to point that every dog needs proper exercise whether competing in the showing for top honours or not. Finally I would like to thank all of you for your sportmanship in taking my decisions of placings for the day.

BABY BITCH

1. Jinew Miss Poppet

A lovely 5.5 months old black brindle bitch, who already is well developed for her age. A well defined feminine head with a distinct stop. Well set and carried ears. Would prefer a bit cleaner lip. Well constructed front, well knuckled feet. Short neck which flows nicely into her back. Well angulated hindquarters. Nice tailcarriage, moved well for her age.

MINOR BITCH

1. Akinos Aphrodite

Good size. Nice head with a lovely expression, her cheek muscles contributed in giving her a wonderful Staffy smile. Neat rose ears, well placed eyes. Nice big nostrils. Already a well developed brisket for her age. Good substance. Would prefer tighter feet. Well laid shoulders, well sprung ribs. Level topline. Well angulated hindquarters.

STAFFORDSHIRE BULL TERRIER CLUB OF WESTERN AUSTRALIA

2. Onahi Iron Heart

Nice shaped head, neat ears and well placed eyes. I would prefer the eye a bit darker. I would like to see the lips to be thinner. Sufficient forechest. Well laid shoulders. Typical front with the feet turning out as desired by the breed standard. Good substance. Well sprung ribs.. Her rear is strong with a nice bend of stifle. I preferred the head of number one.

3. Shadowstaff Talk Dirty to Me

Nice shaped head with a distinct stop. Strong underjaw. Neat rose ears, well set and shaped eyes. Short neck. Well fronted brisket. Good rear angulation.

PUPPY BITCH

1. Zeracious Sudden Impact

White, well defined head, unfortunately no pigmentation on her eye-rims, but that doesn't take anything away from the quality this puppy has, just something to put on the wishlist as pigment can still appear at a bit later age. Her lips are very well pigmented. Neat rose ears, well placed ears. Short neck. Sufficient forechest. Level topline. Well set tail I've admired the Staffordshire Bull Terriers from this kennel for a long time and I'm sure this one will get her crown with ease.

2. Akinos Making A Storm

Brindle. Well shaped head with a distinct stop. Well set rose ears. I would prefer the eyes to be a bit darker. Nice big nostrils. Typical front with the feet turning out as desired by the breed standard. A bit too long in body. Good tailset.

3. Shadowstaff Dirty Sexy Money

Black brindle with a well-defined head. Distinct stop. Neat rose ears. Strong underjaw. Well fronted brisket. Good size. Well sprung rib. She's crabbing, meaning that she's moving forward but her body is turned at a slight angle. The reason is that her hindlegs are just too long to coordinate properly, she's still young so this might change with aging, some puppies have sometimes a strange way of growing up.

JUNIOR BITCH

1. Powerpaws Flower of Scotland

Good head shape with well-set rose ears. Well placed and shaped eyes. I would like to see more width in the front. Good substance. Well knuckled up feet. Would prefer stronger pasterns. Well sprung ribs. Presented in good condition.

2. Shadowstaff The Mistress

Nice head with a distinct stop. Neat rose ears. Would prefer the eye a bit rounder. Well developed cheek muscles. Well sprung ribs. Short neck. I preferred the length in body from number one.

3. Hymere Bermuda Triangle

Nice head with distinct stop. Well set rose ears. Well shaped eyes which I prefer a bit darker. Front angulation could be better which would give the elbow a better adjustment to the body. Good pastern. Front movement loose.

INTERMEDIATE BITCH

1. Ch. Bxact Talking Point

Red with a white chest. Well proportioned head with distinct stop. Well set rose ears. Strong underjaw. Good pigmentation Good width in front. Well boned. Would prefer the feet a bit tighter. Good pigmentation. Well laid shoulders. Well sprung ribs. Well angulated hindquarters. Moved with drive.

2. Westrova Stoic at Artisinal

Black brindle with white chest. Well proportioned head with distinct stop, well set rose ear. Good width to the front. Good substance. Would prefer a tighter front construction. Good length in body. The angulation of her pelvis is too steep which influences her movement.

3. Ch. Taino Danding Thunder

Well proportioned head with well set ears. Well shaped eyes which I prefer a bit darker. I would prefer more width to her front. Good substance. Short neck. Good tailset. Presented in good condition.

STATE BRED BITCH

1. Akinos Temptress

Well shaped head with well set rose ears. Well placed and shaped eyes. Short neck. Well constructed front. Good depth of chest. Well sprung ribs, nice tuck up.

2. Ch. Castlebar Raise the Roof

Well shaped head with neat rose ears. Well placed and shaped eyes. Would like to see more filling under the eyes. Short neck to flows fluently into her back. Well angulated hindquarters. I preferred the head of number one.

Bitch with lots of breed type. Black brindle with a white chest. Well proportioned head with a distinct stop. Well knuckled up feet. Good angulations in front and rear. Presented in lovely condition.

2. Ch. Savion Razzel Dazzel

Black brindle with a white chest. Well shaped head with a distinct stop. Neat rose ears and well shaped and placed eyes. A bit overloaded on the shoulders. Well sprung ribs. Well constructed hindquarters. Preferred the shorter length in body from number one.

3. Ch. Castlebar Ring Side Riot

Black brindle Well shaped head with a distinct stop. Could do with a bit more filling under the eyes. I would prefer a long upper-arm from which her front construction would benefit. Well set tail.
